

We're hiring

About us

Apex Design is a Denver-based consulting firm specializing in transportation planning, traffic engineering and operations, and technology for surface transportation. Apex is well-respected by our clients and teaming partners, and our staff takes pride in being able to show friends and family how we are making a difference with our projects. Visit our website at www.apexdesignpc.com to see a sample of the complex, innovative, and highly visible projects we have delivered.

Apex promotes a culture of professional growth through training, leadership development and encouraging involvement in professional organizations. Our team maintains an attitude of mutual support and collaboration. We share best practices and lessons learned across projects, and foster great relationships through quarterly team building and social activities.

Put simply...we are proud of what we do and who we work with!

Where you fit in

Apex is looking for motivated and talented engineers ready to join our team and contribute to projects that make lives better. We are hiring:

- A **Senior ITS Engineer** to work on some of Colorado's most innovative, complex, and visible technology projects
- An entry to mid-level **Traffic/ITS Design Engineer** to help deliver major design projects for Denver, CDOT, RTD, and other public agencies across the State
- An expert **Travel Demand Modeler** craving a diverse array of projects to challenge themselves
- A **Traffic Operations Engineer** to perform traffic analysis, modeling, and studies

We offer a competitive compensation package and the ability to grow both professionally and personally within the engineering community. To apply, submit a cover letter and resume to careers@apexdesignpc.com with attention to Melissa Rosas, PE, President.
